

## **Opening of applications for the Chevening Scholarships Programme 2015/2016**

Chevening applications for the academic year 2015/2016 are now open, and with the recent announcement from the Foreign and Commonwealth Office on the significant expansion of the Chevening Programme, we are expecting to be able to offer approximately 1500 scholarships for 2015/2016. In light of this expansion, we are exploring all avenues for promoting the Programme and we would appreciate your assistance in advertising the awards in Mexico.

As part of the academic and professional network, you are in a great position to help us identify and encourage potential applicants for the next cohort of global future leaders and policy makers. Please do take time to promote this new opportunity to like-minded people within your own networks who are future leaders, decision makers or influencers that are looking to enhance their personal development by studying at postgraduate level in the UK.

The application window will close on 15 November at 23.59 GMT. Applications are to be made online at [www.chevening.org](http://www.chevening.org), and applicants should read the online guidance and demonstrate how they meet the Chevening selection criteria before submitting an application. If they have further questions on the programme they can use the contact us function on the website.

Please help us promote the Chevening Scholarships Programme 2015/2016 and direct any applicant to the website [www.chevening.org](http://www.chevening.org)

The Chevening Programme is also investing more resources into our engagement with Alumni and this initiative will progress over the coming months. For more information, please refer to the Alumni pages on the Chevening website, and if you have not already done so, please register your details with the online directory and join the ever-expanding Alumni cohort.

Thank you in advance for your continued support.

You're sincerely

Richard Shackleton  
First Secretary Climate Change, Energy and Low Carbon Prosperity
